Media Release

LNP sets 5% unemployment target

Thursday 15 October, 2020

LNP Leader Deb Frecklington has today announced that an LNP Government will set an unemployment target of five per cent.

“The LNP will set an unemployment target of 5 per cent to get Queensland working again,” Ms Frecklington said.

“The 200,000 Queenslanders who are out of work right now need a government with an economic plan to achieve a jobs target.

“Labor has no Budget, no plan and no unemployment target.

“If you don’t set targets, you don’t have focus and you simply aren’t working hard enough.

“The LNP’s target of 5 per cent will mean Queensland’s economy is growing and jobs are being created.

“The LNP’s economic plan will create 150,000 jobs by investing in job-creating infrastructure, lowering taxes and reducing electricity prices.

“Only the LNP has a plan to stimulate the economy, create a decade of secure jobs and lead Queensland out of this recession.”

Let's get Queensland working again
